Simon,

Thanks for the ROI that you have submitted for funding under the Boating Now Program.

After an initial review of your application for funding it is suggested that in finalising your formal application that you consider including:

- Any data on numbers of boats/visitors currently using the facility (whether from your club or the general public);
- Any detailed costings that you may have to support the construction cost estimate;
- A clear statement that the facility is (or is not) available to the general public for use with access through Mackey Park Reserve;
- A letter of support from Inner West Council; and
- A statement on the future maintenance responsibilities for the access ramp (will this be the Club or Council)

Adoption of any of the comments does not guarantee a successful grant application. Guidance has been provided to improve any potential funding application that you may seek to submit for this site.

At this stage it is anticipated that formal applications will be called for in mid-February with a closing date of late March.

If there are any further questions, please do not hesitate to contact me .

Regards

Anthony Johansson
